

# New Extension of Pike River Pathway Now Open!

*Please contact the  
Village Engineering  
Department with  
any questions  
regarding the new  
trail extension at  
(262) 664-7800*

Existing Pike River Pathway
Newly Completed Pike River Pathway
Existing Racine County Path

The Village of Mount Pleasant has recently completed paving of over 2 additional miles of recreational trail within the Mount Pleasant Storm Water Drainage Utility's Pike River Corridor. The new section of paved trail (orange) provides connectivity to the 2 miles of existing Pike River Pathway (green) north of Washington Ave. and the Racine County Trail (purple) currently traversing the Village.

The Village is very excited to be able to provide and promote this amenity to the residents of Mount Pleasant. We encourage everyone to get out and enjoy the new trail and many places it can take you. The Pike River Pathway also provides access to hundreds of acres of reconstructed Pike River corridor, with its restored wetland and prairie areas providing access to many other outdoor opportunities.
